Overview

Carolina Juniors Volleyball (CJV) is a division of Sports Connection in Charlotte, NC. CJV was started in 1995 when the directors of the three local USAV-Travel Clubs joined the Sports Connection in an effort to create one unified volleyball club to allow the best talent to be able to play together. CJV continues to be the Premier Volleyball Club in North and South Charlotte with over 2500 girls and boys ages 3-18 and the most successful high school, middle school and collegiate coaches in the area. In addition to continuing to sponsor the most competitive teams in USAV and AAU competition from the area, CJV also has developed many other TEAM & TRAINING PROGRAMS to allow ALL levels of players to learn, practice and compete while striving to reach their full potential in the sport of volleyball.

Team Programs

CJV offers 8 different levels of Team Programs ranging from the beginner player at the Bronze Level all the way to the college bound player at the Elite Level and every level in-between. The goal of the Team Programs is to allow all girls and boys to practice and compete with other players of the same or similar skill levels at the most affordable cost possible and with the best coaches in the area. Some teams will need to travel outside of the Charlotte area, or the state, to compete with teams of their caliber, while other teams are able to compete within the Charlotte area with minimal travel.
